

Cut Dictionary (Introduction)

B05902120 / Yu-Ting, TSENG

Jun 8, 2016

Living in the world village nowadays, English is such an indispensable medium for us to reach out to others. And thus, taking Toeic, GEPT, and several English proficiency tests becomes important things in our school life. I still remember the night memorizing my vocabularies; “how can this be so difficult?” I asked myself uncountable times.

As the time went by, I deeply felt that expanding vocabularies by traditional ways was not efficient. For instance, you would never meet the standard you needed if you only got new knowledge through textbook; in addition, it was obviously not feasible if you enriched your vocabulary by memorizing all the words which showed up in the dictionary. In order to improve this “tragedy”, we decided to create a dictionary labeling those vocabularies by prefix and suffix.

One of the members in our group, Zhou Yi, carried out our thought; he created a useful app, “cut app”, based on our idea. We would like to introduce this practical application to you.
